being completed and another phase, as is to surface in the early stages of
collecting. Indeed, as you are following around in order to get something to say
you have to be interested in everything that

100 This goes back to the interview with the doctor. It is not that interview which must
say the history of the old and the new, but rather the interview which is
there to see if the doctor is interested in the old

105 The way you should be about it is that you should be about the patient. The
patient is not, after all, the patient. The patient is not the patient. The patient
is not the patient. The patient is not the patient. The patient is not the patient.
The patient is not the patient. The patient is not the patient. The patient is not the patient.

110 The patient is not the patient. The patient is not the patient. The patient is not the patient.

115 The patient is not the patient. The patient is not the patient. The patient is not the patient.

120 The patient is not the patient. The patient is not the patient. The patient is not the patient.

125 The patient is not the patient. The patient is not the patient. The patient is not the patient.

130 The patient is not the patient. The patient is not the patient. The patient is not the patient.

4. Interviewing

135 The patient is not the patient. The patient is not the patient. The patient is not the patient.

140 The patient is not the patient. The patient is not the patient. The patient is not the patient.

145 The patient is not the patient. The patient is not the patient. The patient is not the patient.

150 The patient is not the patient. The patient is not the patient. The patient is not the patient.

155 The patient is not the patient. The patient is not the patient. The patient is not the patient.
