Sub: "Amendment in the Environmental Clearance issued to NBCC Ltd. on Redevelopment of East Kidwai Nagar, GPRA," New Delhi-reg.

Sir,

1. This has reference to your application submitted on 03.01.2014 to the State Level Expert Appraisal Committee (SEAC), Delhi, constituted vide GOI Notification No. S.O. 1888(E) dated 30.07.2008 and re-constituted vide GOI Notification no. 1845(E) dated 08.08.2011, for seeking Environmental Clearance under the Environmental Impact Assessment Notification, 2006 amended as on date. The matter was discussed in the meetings of SEAC dated 24.01.2014 and 26.02.2014. Subsequently, letters for submission of the desired information/ documents were issued to the Project Proponent. On receipt of your responses to the said SEAC, Delhi, the proposal has been appraised on 26.02.2014 as per prescribed procedure in the light of provisions under EIA Notification, 2006 as amended to date on the basis of mandatory documents enclosed with the application along with the additional clarifications furnished in response to the observations of State Level Expert Appraisal Committee.

It is inter-alia noted that the proposal is for grant of Environmental Clearance for "Amendment in EC issued to NBCC Ltd. on Redevelopment of East Kidwai Nagar, GPRA," New Delhi. The Environmental Clearance was granted to the project "Redevelopment of East Kidwai Nagar, New Delhi vide EC letter No DPCC/SEIAA-SEAC/127/11/224 dated 13.08.2012. The NBCC, vide its letter dated 18.12.2013, informed SEIAA that it has called for tenders for establishing C & D waste recycling plant on the site and to include this unit as an integral part of the project for which the EC was issued. The Committee decided to have a presentation on the C & D Waste recycling plant before taking decision regarding amendment in the EC.

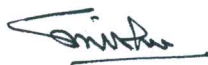

M/s Enzyme Infra Pvt. Ltd., which has been awarded the work for installation & operation of C & D Waste recycling plant, alongwith NBCC officials made the presentation before the committee. The following are the salient features of the C & D waste recycling plant:

In the work of Redevelopment of Kidwai Nagar (East), GPRA colony, about 2444 Type I, II, & V houses and other existing structures have to be dismantled & demolished. The demolition process will generate huge quantity of Construction & Demolition Waste (C & D waste). The C & D Waste has to be disposed off to a designated dumping area to re-cycle the same as per the norms. Under the guidance of the Secretary of MoUD, NBCC has taken an initiative for effective disposal of C & D Waste by installing an in situ C & D waste Recycle Plant with a mandate of ZERO waste at the upcoming project "Redevelopment of Kidwai Nagar (East)". A 150 Ton per Day C&D waste Processing Plant for producing 7.5 MPa Class bricks, which will be used in the project, will be installed. The plant & machineries to be installed in the process are: (i) Block making machine, (ii) Block conveyor, (iii) Stacking vehicle, (iv) Pellet feeder, (v) Center Control Room, (vi) Aggregate hopper, (vii) Cement Weighing Scale, (viii) Concrete Mixer, (ix) Batching and Mixing platform, (x) Control room for batching and mixing, (xi) Concrete conveying belt, (xii) wet concrete conveying belt, (xiii) crushers for construction waste material, (xiv) sieves, and (xv) Conveyer belts for crushed material. The process involves crushing of C & D waste to a desired sieve size and mixing of additives with patented enzymes (non-toxic) and thereafter compressing the material to get the desired size of the bricks. The whole process, which has pollution potential will be undertaken below the ground level in closed chamber without any manual involvement. SEIAA has not examined their requirements as the same has been taken into account by SEAC during the appraisal of the project.

2. The State Level Environment Impact Assessment Authority, (SEIAA) in its 23rd SEIAA meeting held on 02.04.2014 hereby amends the earlier Environmental Clearance issued for Redevelopment of East Kidwai Nagar vide EC letter no. DPCC/SEIAA-SEAC/127/11/224 dated 13.08.2012 by including the establishment of a C & D waste recycling plant as a part of the said project as per provisions of Environment Impact Assessment Notification, 2006 and its subsequent amendments, subject to the compliance of further additional terms and conditions as follows:

PART B- GENERAL CONDITIONS

- (i) Dust emission should be regulated by using automatic system, i.e., silos and closed conveyor belts.
- (ii) Necessary mitigation measures should be taken to control noise pollution.
- (iii) Separate CTO and CTE should be obtained for C & D plant before the commissioning.

" Any appeal against this amendment in the environmental clearance shall lie with the National Green Tribunal (NGT), if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal (NGT) Act, 2010".

(Sandeep Mishra)
Member Secretary (SEIAA)
