The SEIAA took note of the view of the SEAC of delisting these projects. However, the Authority felt that for holistic development of Narela, it is important that the provision of overall services and basic facilities are also viewed from the environmental angle and, therefore, the DDA should be asked to provide complete details as to how they propose to go for the plan development in Narela with integration of the proposed individual projects to the SEAC for its consideration. Hence, the SEIAA decided that these two projects should not be delisted and appropriately be reverted back to the SEAC for consideration through further interaction with the DDA.
