The SEAC in its 79th meeting held on 16.04.2016 w.r.t. above four cases noticed that the four project proponents have filed the application for issuance of the TOR for setting up the new Common Bio-Medical Waste Facilities in addition to the already existing facilities of Delhi

The SEAC in its above said 79th meeting held on 16.04.2016 recommended as follows w.r.t. above four cases:

"The Committee noticed that the four project proponents have filed the application for issuance of the TOR for setting up the new Common Bio-Medical Waste Facilities in addition to the already existing facilities of Delhi.

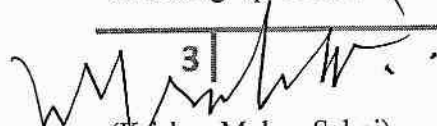

During the meeting, it was appraised to the Committee that the Advisory Committee on Bio Medical Waste Management in its meeting held on 22.09.2015 under the chairmanship of Special Secretary (Health & Family Welfare) has discussed that the Bio Medical Waste generation in Delhi as well as existing capacity of Common Bio-Medical Waste Treatment Facilities is about 14.94 Tonne/day and about 24 Tonne/day (18 hours basis) respectively and this could meet the treatment capacity by the existing CBWTF for next 3 to 5 years.

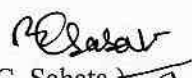

Under the provisions of newly notified BMW management Rules, 2016, the guidelines for CBWTF is mandatory therefore the selection of the site for setting up of such facility shall be made in consultation with the prescribed authority, other stake holders in accordance with guidelines published by MoEF&CC or CPCB. Regarding the land requirement the CPCB guidelines provides that a CBWTF will require minimum of one acre land area so probability a CBWTF is to be set up on a plot size of not less than one Acre. None of the proposal is in possession of the requisite land area as inquired from each of them during the meeting.

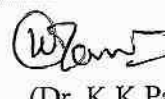

The Committee took a note of the fact that increasing the number of CBWTF in Delhi in indiscriminate manner will add to the incineration activities in Delhi and thereby defeat the efforts of the Delhi Government for the minimisation of environmental pollution in Delhi State. Therefore, Setting up of any new CBWTF is to be governed as per the provisions of Bio-Medical Waste Rules as well as the guidelines issued by Central Pollution Control Board/MoEF&CC in accordance with the need base specially when the BMW generation exceeds the existing treatment capacity in a state which is also as per the review to be done by the advisory committee periodically in consultation with DPCC and DHS regarding requirement of the any new facilities.

The Committee decided that the Advisory Committee constituted in pursuance of Bio Medical Waste Management Rules be asked to advise whether any new CBWTF in Delhi is required and viable in view of the fact that already existing CBWTF's in Delhi are having more treatment capacities than the BMW generation and catering the need of health care establishments in accordance with BMW Rules. "

The cases were considered in subsequently by SEAC in its 81st meeting held on 16.07.2017 and in its 83rd meeting held on 15.10.2016 SEAC recommended that the response of Directorate of Health Services received vide letter dated 06.09.2016 along with e-mail dated 14.10.2016 received from Sh. Navneet Panwar be forwarded to prescribed authority under Bio-Medical Waste Management Rules i.e. Delhi Pollution Control Committee for comments and present status of the case before Hon'ble NGT in OA No 508/2015 specifically in respect of setting up of new CBWTF in Delhi. Accordingly matter referred to concerned cell of

DPCC and reminders were also issued in view of SEAC's meeting held on 17.12.2016 and on 11.03.2017. However response from DPCC is still awaited.

SEAC in its 88th meeting held on 01.04.2017 recommended to issue a letter to Advisory Committee to provide its final views on the recommendation of the Core Committee made in its meeting dated 27.07.2016 to advise categorically, regarding setting up of any new CBWTF in Delhi mentioning the earlier letter of SEAC issued on 29.04.2016 and inconclusive response received from DHS vide letter dated 06.09.2016. It was also decided that reminder to DPCC may also be issued mentioning that SEAC is not able to proceed further in these matter in absence of any response from DPCC. Accordingly letters were issued on 12.04.2017.

The SEAC in its 89th meeting held on 29.04.2017 recommended to defer the case for want of responses of Authorities.

No response received from DHS & DPCC however a response vide letter dated 19.06.2017 received from Sh. B. Vinod Babu (Divisional head, WMD-I) stating that as per the Annual report for year 2015, 14.6 tons/day of Bio-medical waste is generated from 4197 Nos. of health care facilities and the same is treated and disposed by 02 Nos. of Common Bio-Medical Waste treatment facilities and 08 Nos. of Captive Treatment facilities (only Autoclaves) installed by the healthcare facilities. The available data of 2015 shows that bio-medical generation in Delhi is showing increasing trend at the rate of 7.35% during the year 2011-2015.

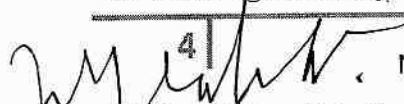

As per the assessment which was carried out in March-April, 2017, jointly by CPCB & DPCC in compliance of the order of Hon'ble NGT s dated 10.01.2017 the total treatment capacity of existing 2 CBWTFs (M/s Biotic Waste Solutions Pvt Ltd & M/s SMS Water Grace Pvt. Ltd) total capacity is 53.8-54 tons /day.

The guidelines on CBWTFs stipulates that new CBWTFs may set-up depending on the total bio-medical waste generation and the total existing treatment capacity. Therefore in view of above necessity for setting up of 3 new CBWTF be decided on the total bio-medical waste generation (taking in to consideration of next 10 years generation) and the available treatment capacity in line with the revised guidelines for CBWTFs issued by CPCB.

As per rule 17(1) of Bio-Medical Waste Management Rules, 2016, the department in business allocation of land assignment is responsible for providing suitable site for setting up of common bio-medical waste treatment and disposal facility in the State Government or Union Territory administration.

As per rule 17(2) of Bio-Medical Waste Management Rules, 2016 the selection of site for setting up of such facility is to be made in consultation with the prescribed authority, other stakeholders and in accordance with guidelines published by the Ministry of Environment, forest and Climate Change or Central Pollution Control Board.

The SEAC in its 90th meeting held on 29.07.2017 recommended that as per letter received from CPCB the existing installed treatment capacity for the Bio-Medical Waste Generation in Delhi has been reported as 54 tons/day as per the assessment which was carried out in March-April, 2017, jointly by CPCB & DPCC. The bio-medical waste generation in year 2015 is reported as 14.6 tons/day. The CPCB has further advised that necessity for setting up of 3 new CBWTs be decided on the total bio-medical waste generation (taking in to consideration of next 10 years generation) and the available treatment capacity in line with the revised guidelines for CBWTFs issued by CPCB. It has been further reported by CPCB

that the available data of 2015 shows that bio-medical generation in Delhi is showing increasing trend at the rate of 7.35% during the year 2011-2015. Rule 11 of Bio-Medical Waste Management Rules, 2016 prescribes the constitution of an Advisory Committee by every State Government or Union Territory administration under the chairmanship of respective Health secretary to oversee the implementation of these rules and rule 17(2) prescribes the selection of site for common bio-medical waste treatment and disposal treatment facility (CBWTF) in consultation with the prescribed Authority (the DPCC in present case), other stake holders and responsibility to provide suitable site lies with the department in the business allocation of land assignment.

In view of aforesaid position, the SEAC recommended in its 90th meeting held on 29.07.2017 that all the four cases be delisted and any new application for CBWTF be entertained only at the site provided/approved by the land owning/assignment agencies of Delhi with due concurrence of DPCC and Advisory Committee constituted under Bio-Medical Waste Management Rules, 2016.

SEIAA deliberated in the matter and decided as follows:

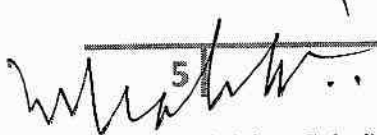

The SEIAA approved the above decision taken by SEAC in its 90th meeting held on 29.07.2017 and decided to delist all the four cases.
