Committee expressed its concern over time taken to process the cases of HCEs and felt that there is need to simplify the procedure for grant of CTE/CTO under Air/Water Act and Authorisation under BMW Rules, 1998. It was observed that inspections of HCEs have not been conducted since long. It was therefore decided that inspections of all HCEs be conducted within one month. Schedule of inspections to be placed before Chairman in 3days and all inspections completed within one month. MS to provide two more trainees to BMW cell within a week.

In the meanwhile, based on previous inspections an effort to be made to classify the deficiencies into minor and major and action is to be taken as follows-

1. Major emphasis is to be given on compliance of BMW Rules.
2. Deficiencies which are of minor in nature which are observed during inspection should be communicated to the HCE through a letter giving 15 days' time for rectifications. On the receipt of reply case may be put up before committee for further decision.
3. Deficiencies which are of major in nature which are observed during inspection should be communicated to the HCE through a Show Cause Notice giving 15 days time for filing its reply. On the receipt of reply appropriate time may be given for the rectifications of the deficiencies with the approval of Competent Authority.
4. It was further decided that cases where more than three months have lapsed after giving Show Cause Notice no further action has been taken on the basis of Show Cause Notice, the HCE may be reinspected for deciding the case afresh.

However D~~O~~HS may like to take review of the protocol followed by the Health Care Establishments and issue fresh guidelines to deal with such cases as well as to ensure that all hospitals follow BMW Rules.

Next meeting of the Committee to be conducted within one month.
